

EQUIPMENT SPECIALIST

TSO₃ is a publicly traded company listed on the Toronto Stock Exchange (TOS), with offices in Québec City and Myrtle Beach, SC. Its activities cover sales, maintenance, production, research, development, and the granting of licenses of sterilization processes, accessories and related consumables for heat-sensitive medical devices. The technology has a combination of unique features in low temperature sterilization industry, which advantageously position it against the competition in this fast-growing sector. In December 2014, TSO₃ has received approval from the Food and Drug Administration (FDA) for the commercialization in the US of its new STERIZONE[®] VP4 Sterilizers.
