SIMPLE AND SAFE TO OPERATE

Load the device, press the button, and let the machine do the work.

- No load calculations
- Reduce sorting
- Mix and match devices up to 75 lbs¹
- Eliminate stuffing

Proven to sterilize even some of the most complex, challenging, sensitive medical devices. The only sterilization system cleared by the FDA and validated to sterilize long, complex, flexible multi-channel endoscopes that fall within certain dimensions, including colonoscopes, gastroscopes and duodenoscopes.¹

ERGONOMIC DESIGN

- No heavy lifting
- Up to 75 lbs¹ effortlessly glides into the sterilizer on a specially designed rack and cart
- After a cycle, slide the rack out onto the cart to visualize the load

STERIZONE®
VP4 STERILIZER

OUR MISSION: A STERILE DEVICE FOR EVERY PATIENT.
